From offices, commercial environments, schools, libraries and medical centers, to stockrooms, shop floors, warehouses and industrial settings – our static shelving systems are varied and versatile enough to be used in a vast range of workplaces. Our static shelving systems come in various shapes, sizes and styles, but one thing that remains consistent throughout is the market leading quality of each product.

Heavy Duty Shelving System

Short Span

Wherever there is a need for storage, there is a job for shelving. From stand-alone single units to multilevel storage bays, HD Short Span shelving is the single, simple to use and versatile solution.

HD Short Span shelving offers almost limitless scope for the creation of customized storage facilities; and a complementary range of accessories extends its capabilities still further.

Medium Span

Medium span system incorporates a wide range of shelves, beams and frames. Making it easy to customize shelf unit to meet your precise storage needs. Purpose designed accessories are also available to extend the versatility of the medium span system still further.

Standard shelves will support loads of up to 200 kg. And when even that's not enough, there's the option to specify heavy or extra heavy duty for more demanding storage environment.
