

LINKMISR
ADVANCED STORAGE SOLUTIONS

Food & Beverage catalogue

Food & Beverage

Link Misr with twenty years experience supported with modern fully automated lines for producing shelving and racking systems.

This manufacturing facility allows Link Misr to process all products perfectly to create a high-grade end product meeting the most stringent international quality and safety standards.

One of the most proven ways to increase sales in a retail environment is to create an effective traffic flow throughout your store while maximizing space in all four corners.

When customers are able to move freely from aisle to aisle, you will be offering more visible variety, which in turn will sell more.

Our gondola shelving and wall units are designed to handle all types of products and can fully complement other types of retail displays.

Each piece of gondola shelving is easy to assemble and can be customized to fit your exact needs.

Gondola shelving system is the ideal, practical, durable and versatile solution, Flexible & collapsible in nature and innovative in design. This system provides the users full freedom of expand.

Accessories offered include rich in display with shelving and lights. Made from strong materials, our accessories have a high weight bearing capacity. The offered products have perfectly finished surface, without any roughness that can harm customers while picking goods.

Linkmisr creates concepts based on our customers' needs. Each concept is rendered and then created according to feature requests.

Super market shelving system designed by us provides an efficient & practical storage and display solution for supermarket industries.

Available in flexible pattern and beautiful color combination.

This system can be installed easily without any tool.
