# Euro Shelving System

## Euro Shelving A Storage System For Every Working Environment

Wherever there's a need for storage, there's a job for Euro shelving. From stand alone single units to multi-level storage bays, Euro shelving is the single, simple to use, versatile solution.

Modular in design for ease of assembly, Euro shelving offers almost limitless scope for the creation of customized storage facilities; and a complementary range of accessories extends its capabilities still further.

Euro shelving features unique shelf support clips that simply slot into place giving firm support for even the heaviest loading requirements, yet allowing for quick and easy repositioning whenever required. Standard shelves will support loads of up to 200 kg. and when even that's not enough, there's the option to specify heavy or extra heavy duty for their more demanding storage environment.

### Euro Shelving Features:

Euro Shelving offers you a choice of components-side frames in a variety of depths, shelves in three duties, and shelf support clips for easy fixing.

Euro shelving is available open backed or clad to match your precise specification.

- 1-Shelves utilize box section construction at the front and rear for load bearing strength and rigidity.
- 2- Shelf support clips have been specially developed for the Euro shelving system. For safety, their design helps prevent accident shelf dislodgement whilst being extremely easy to use.
- 3- simply slot the clip into the uprights to create an extremely rigid structure yet allowing for quick and easy re-positioning of shelves.
- 4-Shelves locate at 50 mm increments as standard for maximum versatility in shelf positioning.

# New Stormor Shelving System

## Mono, Solo & Duo Shelving

Books, Documents, and Archiving Materials can be demanding on storage space. That is why we have made Link Misr STORMOR Shelving System. Easy to use and fully adjustable, offering you the widest range of options for more effective use of shelf space.

New STORMOR system gives you a variety of shelves and upright sizes allowing storage of bulky items or smaller ones without any vertical or horizontal spacing wastage. New STORMOR shelving system will even handle heavy files or office equipments, easily assembled and simple to adjust

Stormor shelving is also effective when used in centralized storage areas, with the slim shelf and upright profiles minimizing wasted space within the storage cube
